

# BVI records: GamiFi 2082070

Historical source edition | 7 September 2026

Public crypto research edition. The following material preserves historical analysis, source identifiers, transaction amounts and stated qualifications. Observations retain their original dates, principally 5-7 September 2026. Preparing this edition did not repeat the blockchain, corporate-registry or legal research.

Read each assertion with its cited source and limits. A public role, a wallet connection or a valid transaction does not by itself identify a human operator, prove personal receipt or establish wrongdoing. The reports distinguish findings, interpretations and unanswered questions.

Correction precedence: the 7 September 2026 ShibaFriend claims review reports repayment of the principal of all 23 non-dust funding addresses, with only 168 base units of dust unmatched. It also reports equal project matches for all 194 identified paid Mystery Box mints. Those later findings supersede earlier uncertainty about those specific questions. See [Research\\_Paper\\_ShibaFriend\\_Claims\\_Review.pdf](#).

Original source-page labels and reference identifiers are retained where useful. Gaps in numbering reflect the crypto-only scope. Historical references to companion records are locators; consult the repository inventory to see which records are included. Current availability of an external source is not guaranteed.

# Contents and document control

| Consolidated investigator edition | 7 September 2026

This consolidated edition presents company identification, historical publications and access; registry evidence and the remaining ownership questions. Source identifiers and hyperlinks are retained. Blockchain, registry and archival observations remain tied to the dates and verification limits stated in the report.

| **Consolidated edition, 7 September 2026.** Access observations and official materials were reviewed on 6 September 2026; this editorial revision does not represent a new registry search or price quotation.

## 1. Conclusion

**The exact search target is Gamifi Limited, BVI company 2082070. Its official filing history and historical ownership remain unobtained. Selected older Gazette notices are freely accessible, so a paid subscription is not the only route.** [BASE-01; R1; GZ-04-GZ-05]

The supplied official-search screenshot establishes the name/number pair. The incorporation date **12 November 2021** comes only from a secondary directory. No official certificate establishes that date, current status, agent, directors or members. The screenshot does not show a fee; official sources separately corroborate the US\$50 company-search product. [BASE-01-BASE-02; R1-R4]

The review downloaded **11 Gazette files / 599 PDF pages** without payment and found no target text match. This was an incomplete sample, not a company-status determination. Restricted beneficial-ownership requests became operational in April 2026, but no GamiFi-specific response was obtained. No bank account, Laura receipt or human signing-key holder was identified by this access review.

## 2. Verified entities and record scope

| Entity                                                  | Exact identifier and evidence                                           | Unresolved identity or history                                                     |
|---------------------------------------------------------|-------------------------------------------------------------------------|------------------------------------------------------------------------------------|

| Alphabit Fund I / former Alphabit Digital Currency Fund | <b>Cayman WC-319009; LEI 213800NZCHTWXWVPWO96; CIMA licence 1449685</b> | Legal name-change certificate and executed investment/management agreements        |

The Arquivo.pt terms captured **19 October 2021 at 07:59:25 UTC** display revision **13 January 2021**; the **1 February 2022 at 20:10:17 UTC** capture displays **10 November 2021**. Both name a Virgin Islands Launch Pool Limited without a company number. The earlier printed date precedes candidate 2054898's secondary-reported incorporation. This is an unresolved dating/identity discrepancy, not proof of January publication or the candidate's identity. [INT-01-INT-02]

GLEIF records Alphabit's name-field update on **25 September 2019**, not the legal effective date. The LEI is **LAPSED** and its record was last updated in March 2022; its ACTIVE entity field is not current good standing. CIMA's 2017 and 2021 lists connect both names through licence **1449685**, dated **22 November 2017**. These different identifiers must remain separate. None supplies GamiFi's missing corporate file. [INT-03-INT-05]

## 3. What BVI products provide

The ordinary report is a corporate filing index. Its transaction history means **filings with the Registry**, not bank or token transactions. Copies, inspection, current director names and restricted registers are separate products. Current ownership alone would not identify a person who controlled a wallet in 2022. [R1; R6-R9]

Sources: [R1-R11]. Dollar amounts are US dollars under Act section 2. The **US\$250** category appears in **S.I.57/2024, section 2(d), pp.3-4**, effective **2 January 2025** through S.I.75/2024. The still-linked R820 dates to March 2023 and omits it. Reviewed later orders S.I.70/2024, 62/2025 and 119/2025 concern BO/transitional matters and did not replace these ordinary inspection fees. [R2-R4; R12-R15]

The public list concerns **current directors**; FSC's October 2023 newsletter describes certification function **R811**. Section **118B**, as amended, distinguishes it from the full register. Section **43A(5)-(6)** restricts members-register access; subsection (9) concerns filed members and subsequent changes, without guaranteeing a public 2021-2022 history. [R6-R8]

Section **98A** requires the registered agent to provide annual returns to the FSC or another competent authority on request. The return contains summary balance-sheet and income-statement fields. The regime began **1 January 2023**, with first returns due in 2024; later initial-filing extensions prevent inferring GamiFi's compliance from a generic deadline. It is not a promised 2021-2022 ledger. Directors and members also have specified inspection rights under section **100**; GMI token ownership alone does not establish membership. [R4; R9-R11; R16]

Restricted beneficial-ownership access

The FSC announced launch on **1 April 2026**, following its **30 March** circular. The process requires a qualifying legitimate interest, identification, contact information, entity name, signed purpose statement and limited-use declaration. The Registrar assesses eligibility and objections/exemptions apply. Disclosure concerns natural persons meeting **25%** ownership/voting or specified control tests, not every shareholder. Company, agent and insolvent-liquidator requests have a separate route under regulation **31B(2A)**. [BO-01-BO-03; BO-05]

Reviewed guidance specifies **US\$75 non-refundable per application**, plus **US\$75 certification** if requested. S.I.119/2025 and S.I.120/2025 tie the relevant commencement to **29 December 2025**. The circular describes English PDF supporting evidence, certified valid KYC documents, registered-agent notice and a 12-day operational timetable without objection or opposition; a disputed application is not guaranteed within that period. No free substitute, applicable waiver, requester entitlement or GamiFi BO filing was established. The linked login destination could not be opened by the automated reader. [BO-01-BO-06]

The **26 March 2026** Cabinet Office outage bulletin attached Gazette **29**, 72 pages, still freely downloadable more than two months later. Its commercial section starts at PDF p26 / printed p1013; the cover locates liquidator appointments at p1013, dissolutions at p1038, other liquidation notices at p1056 and continuations at p1058. The **31 July** bulletin attaches Gazette **80 of 30 July**, 78 pages. These official examples resolve the earlier blanket paywall claim. [GZ-04-GZ-05; GZ-P10-GZ-P11]

Ten post-reported-incorporation files total **511 pages**: nine official files / **477 pages**, plus the **34-page europeanmet.com extract**, which was not byte-matched to an official original. Its host has no established connection to GamiFi. Text extraction succeeded in all eleven files; case-insensitive and whitespace-tolerant checks for Gamifi and 2082070 returned **zero matches**. No 2025 issue was recovered. The search was neither continuous nor a visual review of every notice; image-only names, missing dates/pages, previous names and later changes remain outside that conclusion.

Government/Statutory pages can contain corporate-status warnings: the June 2022 file has registered-agent warnings from PDF p23, and December 2022 from p4. Those concern other companies. A warning, completed strike-off, liquidation, dissolution and restoration must be recorded as distinct events. [GZ-P03; GZ-P06]

Two-engine exact-name/number/domain/liquidation searches produced no verified GamiFi notice. Failed opens and HTTP 403 responses are access failures, not negative company results. The internal authenticated Gazette search was not run.

## 5. Outstanding records and next steps

A **free basic Gazette account** is the specific untested manual route. Search Gamifi, Gamifi Limited and 2082070 from November 2021 onward across Ordinary and Extraordinary issues; retain filters and issue/page citations and save permitted original PDFs. A locked result may still identify a document to seek from a public bulletin or an existing lawful holder, but that metadata access was not tested. No account, purchase, subscription or outbound request was made. [GZ-01; GZ-07]

Existing company/agent disclosures, court exhibits or an institutional holder may provide records; no holder's availability was confirmed. The Gazette History page describes physical holdings from 1967 onward. Its FAQ advertises \$0.50 per page and annual print subscriptions of \$300 BVI / \$350 Caribbean / \$450 elsewhere. Stale 2007 wording and conflicting office details make these service leads to confirm, not verified free inspection or current quotations. The 2026 covers identify the Gazette Unit at Elliott Hodge Building, Third Floor, (284) 468-4336, gazette@gov.vg. [GZ-02-GZ-03; GZ-P10-GZ-P11]

## 6. Evidence and source register

The retained evidence includes successful raw PDFs, extracted text, URLs, retrieval times, byte counts, hashes, search notes and failed-access observations. Some FSC HTML was readable through the research service despite direct-download 403 responses; no raw capture is claimed for those pages. The earlier public-filings check remains a dated baseline, not a certificate of no proceedings. Restricted access and absent results are not evidence of misconduct.

Source checks below date to **6 September 2026**. PDF pages are physical one-based pages unless labelled printed. The source register is retained to preserve exact recovery locations; the source documents and quoted statutory versions remain unchanged.
